Strengths

Problem-Solving & Logical Thinking

Multitasking

Critical Thinking

Time Management

Teamwork

Summary

I am a dedicated B.tech student specializing in Information Technology, with a strong emphasis on Full Stack Web Development using the MERN stack. My projects reflect my capability in developing web-based solutions that streamline processes and enhance user experience.

Education

B.Tech, IT

Jan 2022 - Jul 2026

MGM College of Engineering, Nanded

Pursuing a Bachelor's degree in Information Technology with a focus on Full Stack Web Development using MERN stack (MongoDB, Express.js, React.js, Node.js). Actively building real-world projects, learning data structures.

Current CGPA: 7.2 /10

HSC (12th), Electronic Science

Jun 2020 - May 2022

Shakuntal Jr College, Nanded

Completed Higher Secondary Education in the Science stream with subjects including Mathematics, Physics, and Computer Science. **Percentage:** 61%

SSC (10th)

Jun 2018 - Mar 2020

Hutatma Pansare High School, Dharmabad

Completed Secondary School Certificate with a focus on Mathematics and Science. Participated actively in extracurricular activities.

Percentage: 72%

Projects

1. MERN Stack developer

Mar 2025 - Apr 2025

Self Project, Nanded

Campus Facility Booking System
Developed a comprehensive web-based solution for booking campus facilities like seminar halls, labs, and sports grounds. Implemented real-time availability tracking, booking requests, and admin approval workflows. Improved scheduling efficiency, reduced conflicts, and enhanced transparency in resource management.

- One-event-per-time-slot restriction to prevent double bookings.
- Conflict detection to avoid overlapping reservations.

Stack: HTML, CSS, Node.js, MongoDB
Live: campus-facility-booking.onrender.com
GitHub: [shriyashpachpande/mgm-cfbs](https://github.com/shriyashpachpande/mgm-cfbs)

2. MERN Stack developer

Jun 2025 - Jul 2025

Self Project, Nanded

QuickShow – Movie Booking App
Created a responsive movie ticket booking app where users can explore movies, view showtimes, and reserve seats. Integrated seat selection with real-time updates, and built admin tools for movie management. Delivered a smooth,

3. MERN Stack developer

Sep 2024 - May 2025

Self Project, Nanded

Scholarship Portal (Frontend: Sep 2024, Backend: May 2025)

Built a secure platform for students to apply for scholarships, upload documents, check eligibility, and track status online.

Stack: HTML, CSS, Node.js, MongoDB, Bootstrap

Live: scholarship-qdpt.onrender.com

GitHub: shriyashpachpande/Scholarship

4. MERN Stack developer

Sep 2023 - Jan 2024

Self Project, Nanded

Platform Occupancy Management System

Designed a railway platform monitoring system for real-time occupancy tracking and efficient allocation.

Stack: HTML, CSS, PHP, SQL

GitHub: shriyashpachpande/Platform_Occupancy_Management_System

5. MERN Stack developer

Mar 2023 - May 2023

Self Project, Nanded

Makan

Developed a property booking website for houses, villas, apartments, and parking spaces with a simple, user-friendly interface.

Stack: HTML, CSS

Live: Home Page

GitHub: shriyashpachpande/Makan

Courses

Full Stack Web Development (MERN Stack)

Apr 2025

Learned MERN Stack (MongoDB, Express.js, React.js, Node.js) through the Code with Harry YouTube course. Acquired practical skills in building full-stack web applications with authentication, routing, and REST APIs. Also explored frontend development using HTML, CSS, JavaScript, Bootstrap, and Tailwind CSS. Additionally, obtained hands-on experience with MySQL for relational database management and CRUD operations.

Core Java Programming

Mar 2024

Learned fundamentals of Java programming, including OOP concepts, data types, arrays, functions, and file handling. Developed understanding of Java syntax, logic building, and problem solving using core Java.

Certificates

Participation Certificate – HackFusion 2.0

Feb 2025

Participated in *HackFusion 2.0*, a 3-day national-level hackathon held in Nanded. Reached Round 3 among several competing teams. Worked on a team-based project to solve real-world challenges under time constraints, focusing on innovation and collaboration.

Bug Bunch Coordinator

Apr 2025

Organized and led the Bug Bunch initiative at MGM's College of Engineering Nanded, coordinating weekly debugging sessions to help peers resolve technical challenges in their code. Facilitated collaborative problem-solving discussions, mentored beginners in debugging techniques, and worked with faculty to promote participation.
