Summary

I am a dedicated B.Tech student specializing in Information Technology, with a strong emphasis on Full Stack Web Development using the MERN Stack. My projects reflect my capability in developing web-based solutions that streamline processes and enhance user experience.

Education

B.Tech, IT   **Jan 2022 - Jul 2026**
MGM College of Engineering, Nanded
Pursuing a Bachelor's degree in Information Technology with a focus on Full Stack Web Development using MERN Stack (MongoDB, Express.js, React.js, Node.js). Actively building real-world projects, learning data structures.
Current CGPA: 7.2 /10

HSC (12th), Electronic Science   **Jun 2021 - May 2022**
Shakuntal Jr College, Nanded
Completed Higher Secondary Education in the Science stream with subjects including Mathematics, Physics, and Computer Science.
Percentage: 61%

SSC (10th)   **Jun 2019 - Mar 2020**
Hutatma Pansare High School, Dharmabad
Completed Secondary School Certificate with a focus on Mathematics and Science. Actively participated in extracurricular activities.
Percentage: 72%

Projects

1. MERN Stack developer   **Mar 2025 - Apr 2025**
Self Project, Nanded

Campus Facility Booking System
Developed a comprehensive web-based solution for booking campus facilities like seminar halls, labs, and sports grounds. Implemented real-time availability tracking, booking requests, and admin approval workflows. Improved scheduling efficiency, reduced conflicts, and enhanced transparency in resource management.
- One-event-per-time-slot restriction to prevent double bookings.
- Conflict detection to avoid overlapping reservations.

Stack: HTML, CSS, Node.js, MongoDB

2. MERN Stack developer   **Jun 2025 - Jul 2025**
Self Project, Nanded

QuickShow – Movie Booking App
Created a responsive movie ticket booking app where users can explore movies,

Hobbies

- ■ Train Travel
- ■ UI/UX Designing
- ■ Hackathons Participation

---

view showtimes, and reserve seats. Integrated seat selection with real-time updates, and built admin tools for movie management. Delivered a smooth, responsive, and performance-optimized experience across devices.

- Interactive seat selection with real-time availability updates.
- Confirmation email sent post-booking using background jobs.

3. MERN Stack developer   **Sep 2024 - May 2025**
Self Project, Nanded

Scholarship Portal (Frontend: Sep 2024, Backend: May 2025)
Built a secure platform for students to apply for scholarships, upload documents, check eligibility, and track status online.
Stack: HTML, CSS, Node.js, MongoDB, Bootstrap
Live: scholarship-qdpt.railway.com
GitHub: shriyashpachpande/Scholarship

4. MERN Stack developer   **Sep 2023 - Jan 2024**
Self Project, Nanded

Platform Occupancy Management System
Designed a railway platform monitoring system for real-time occupancy tracking and efficient allocation.
Stack: HTML, CSS, PHP, SQL
Live: https://hackshri.free.nf/
GitHub: shriyashpachpande/Platform_Occupancy_Management_System

5. MERN Stack developer   **Mar 2023 - May 2023**
Self Project, Nanded

Makan
Developed a property booking website for houses, villas, apartments, and parking spaces with a simple, user-friendly interface.
Stack: HTML, CSS
Live: Makan Home Page
GitHub: shriyashpachpande/Makan

Courses

Full Stack Web Development (MERN Stack)   **Apr 2025**
Learned MERN Stack (MongoDB, Express.js, React.js, Node.js) through the Code with Harry YouTube course. Acquired practical skills in building full-stack web applications with authentication, routing, and RESTful API. Also explored frontend development using HTML, CSS, JavaScript, Bootstrap, and Tailwind CSS. Additionally, obtained hands-on experience with MySQL for relational database management and CRUD operations.

Core Java Programming   **Mar 2024**
Learned fundamentals of Java programming, including OOP concepts, data types, arrays, functions, and file handling. Developed understanding of Java syntax, logic building, and problem solving using core Java.

Certificates

Participation Certificate – HackFusion 2.0   **Feb 2025**

HackFusion 2.0 – Participated in a 3-day national-level hackathon; reached Round 3 among top competing teams by developing an innovative solution under time constraints, focusing on collaboration, problem-solving, and real-world impact.

Bug Bunch Coordinator   **Apr 2025**

Organized and led the Bug Bunch initiative at MGM's College of Engineering Nanded, coordinating weekly debugging sessions to help peers resolve technical challenges in their code. Facilitated collaborative problem-solving discussions, mentored beginners in debugging techniques, and worked with faculty to promote participation.

Participation Certificate - HackCelestial 2.0   **Sep 2025**

I participated in HackCelestial 2.0, a national-level hackathon focused on Technology for Social Impact, organized by Pillai College of Engineering, Navi Mumbai. During this event, I worked with my team to design and develop an innovative project solution within the given time frame, which helped me enhance my skills in problem-solving, teamwork, and full-stack development.
